

TOPICS IN BIOLOGY FOR NEET CRASH COURSE (20 Classes)

1. Reproduction in organisms & sexual reproduction in flowering plants
2. Human reproduction and reproductive health
3. Heredity and variation
4. Molecular basis of inheritance and Evolution
5. Human health and diseases
6. Improvement in food production and microbes in human welfare
7. Principle, process and application in biotechnology
8. Organisms and environment and ecosystem
9. Biodiversity conservation and environmental issues
10. Morphology and modification of plant tissues
11. Animal tissues
12. Cell- the structural unit of life.
13. Bio-molecules and cell cycle
14. Plant physiology – I
15. Plant Physiology – II
16. Plant physiology – III
17. Animal Physiology – I
18. Animal Physiology – II
19. Animal Physiology – III
20. Diversity in Living world
